

Measuring Machines

To measure the length of cable, wire, rope extrusions and continuous strip materials of all types with diameters from 6 to 76 mm. Operated by cable passing through inlet guides between a pressure roller and a measuring roller, and outlet guides. Fitted with a Senior Counter as standard, or a Predetermining Counter. The main body of the machine is of cast aluminum with substantial sections and four integral mounting flanges. The pivot arm is also an aluminum casting which carries the 500 mm circumference precision ground steel measuring wheel. The 10mm diameter shaft that supports the measuring wheel revolves in double ball bearings which are mounted in the pivot arm.

Type A

Type B

Type C

Type D

When ordering, please select the correct type for the direction of cable travel, see diagrams. Add letter **A**, **B**, **C** or **D** to the model number.

Model	Description	Price
MPMO	Measuring Machine, Meters only	\$2397
MPMD	Measuring Machine, Meters & Decimeters	\$2397
MPFO	Measuring Machine, Feet only	\$2397
MPFI	Measuring Machine, Feet & Inches	\$2397

Wire Measurers

The Wire Measurer accommodates a wide variety of flexible materials, from 1/64" to 7/8" (.4 to 24 mm) diameter. Measures wire rope and similar stiff materials to 1/2" (13 mm) diameter. Quickly interchangeable guide tubes with I.D.s of 1/4" (6.3 mm) and 1" (25 mm) afford accurate guiding of many hard to measure materials. Low friction, positive control guiding components assure straight-line contact with the measuring wheel so important to measurer accuracy. Stainless and heat-treated steel used for all shafts and surfaces subject to wear by material's passage. Convenient release handles for quick and easy loading. Mechanical counters rated at 1000 ft/min. (300 m/min.) are housed in sturdy, dust-tight cases. Counters add or subtract and reset to zero with one turn of the knob.

Model 1410 indicates to 9,999' 11"; **Model 1420** to 999.9m.

Dimensions: 8 5/16" H x 7 1/4" W

Shpg. Weight: 5 lbs. (2.3 kg)

Accessories:

MODEL 99 COLLAPSIBLE REEL AND STAND:

For efficient merchandising of flexible wire products such as extension cord, building wire and a variety of similar materials. Reel forms a round coil which can be tied before collapsing. The coil off-loads to front.

MODEL 201 STAND:

14" high. Mounts on all **1400 Series** Measurers at the correct height in relation to payout and takeup reels.

MODEL CUTTER-8 WIRE CUTTER:

Mounts at exit edge of Measurer. Slicing action of blade cuts cleanly. Easily resharpened. Not intended for steel wire, armored cable or very fine wire.

Conforms to Weights and Measures specifications in U.S.A. and Canada.

Model	Description	Price
1410	Wire Measurer, Feet & Inches	\$369
1420	Wire Measurer, Meters & Decimeters	\$369
99	Collapsible Reel & Stand	\$409
201/B	Stand	\$46
CUTTER-8	Wire Cutter	\$93
