285 Digital Clamp with Bluetooth & TPI View App

3 Year Limited Warranty
Free TPI View App

Accurate measurements without the need to precisely position wire or cable in the center of the jaw/clamp.

- True RMS for accurate voltage and amperage measurements
- In-Rush Current measurement to capture motor start up current
- Non-Contact Voltage detection through the jaw
- Bluetooth LE communication
- Use with TPI View app to display live readings, save measurements, create and email reports with GPS tagged date and time.
- CATIV 600V rated for safety

285 Digital Clamp with Bluetooth & TPI View App Specifications

Specifications	
AC Amps	600A
DC Microamps (uses test leads)	600uA
AC Voltage	750V
DC Voltage	1000V
Resistance	60M Ohm
Capacitance	60mF
Frequency	6MHz
Temperature	1830°F (999°C)
Duty Cycle	Yes (up to 60kHz)
In-Rush Current	Yes
Record Mode (min/max/avg)	Yes
Relative Mode	Yes
Diode Test	Yes
Continuity	Yes
Non-Contact Voltage	Yes
Backlight Display	Yes
Bluetooth LE	Yes

FCC ID : QOQBGM113
IC : 5123A-BGM113

R 209-J00204
