397 pH Meter - Pen Style

Test the TPI advantage

Applications:

- Boiler water testing for proper pH level to avoid internal material degradation
- Check automotive radiators to avoid acid level build up resulting from dissimilar metals
- Onsite water testing for wells and septic systems; saving lad testing time
- Quickly and easily test aquariums, spas and swimming pools for proper pH levels

Features:

- Wide pH range of 0.10-14.00pH covers most applications
- Operating temperature from
 40 -120 °F (5 50 °C); for
 temperature compensated readings

	1P1 Part Number 397
Specifications:	
Range:	0.10-14.00pH
Accuracy:	+0.10 pH
Calibration:	2 point system
Resolution:	0.10pH
Operating Temp:	40-120 °F
	or 5-50 °C (ATC)
Power supply:	DC 4 × 1.5V
	(LR1130 Button battery)

- · Waterproof design protects the meter during use
- Low power consumption extends battery life for low operation costs
- Auto-off function turns power off automatically after
 10 minutes
- Replaceable Glass Test Tip Electrode that screws on for ease
 a solid of use
- Protective case included for storage
