

## 2-Inch Extension with 1/4-Inch Socket Size

From Klein Tools, Premium Synthetic Wire-Pulling Lubricant is a high-performance waxed-based lubricant designed for general electrical and utility applications, and is compatible with all types of cable, including low-density polyethylene (LDPE). This product goes beyond traditional lubricants with a synthetic formulation that significantly advances the properties of the compound, drastically reducing friction for easier pulling.

### Specifications

Socket Size: 1/4"

Weight: 0.80 oz (22.7 g)
