

BATTERY POWERED VACUUM PUMP

Power and convenience come together in the perfect pump. The first thing you'll notice is this isn't your traditional hilmor vacuum pump. The hilmor BVP2CFM is powered by a rechargeable 18v Lithium-Ion battery with 9Ah extended runtime that keeps you in the field and on task. The hilmor BVP2CFM is designed, engineered and tested to be A2L compatible and includes the same innovative, patented features as the standard hilmor vacuum pumps to make evacuation as easy as possible.

A2L Compatible

Sparkless design and brushless DC motor allow for use with A2L class refrigerants.

Multiple Sizes

1/4", 3/8" flare connections with tethered brass caps.

Easy Oil Changes

Patented sloped front housing and oversized oil fill port allow easy on-site oil changes.

Quick, Easy Access

Easy access to a large oil fill port.

Easy to Check Oil

Quickly identify oil level and detect oil contamination through a large sight glass.

Product Specifications

Item No..	BVP2CFM
CFM	2
Motor HP	1/4
Pump Design	2-Stage
Battery H18VB	18V, 9.0 Ah
Battery Charger HBC18V	1.3 Amp, 110/230V 50/60Hz
Universal Battery Adapter HBPVA-1	NA
Intake Fitting	1/4", 3/8"
Ultimate Vacuum	25 Microns
Oil Capacity	5.4 oz.
Compliance	ETL, C/US, CE
Dimensions	
Length	11.5"
Width	3.6"
Height	7.5"
Net Weight	8.75 lbs. (with battery)
	6.8 lbs. (w/o battery)
Warranty	2 Year Limited
