

## Cable Length Meter

### Functions

- Measures: 25' to 30,000' ft
- Wire size: 26 ga to 4/0 ga
- 250 MCM to 5000 MCM
- Milliohm measurement capability
- Resistance 65Ω

### Features

- Measures: copper and aluminum cables; covers the major wire gauges
- Automatic temperature compensation
- Reads in feet and meters
- Auto power off
- Calibration mode
- 5-Year limited warranty

### Applications

Measure copper and aluminum cables up to 30,000' ft

## Includes

- Test leads (ATL190)
- Calibration bar (15154)
- Hard carrying case (AC504)
- Battery (9V)
- Manual (CLM100-MAN)

## Specifications

|                               |                                                                                                                    |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------|
| <b>Measurement Range:</b>     | 15 to 30,000 feet<br>26ga to 4/0ga<br>250MCM to 500MCM                                                             |
| <b>Accuracy:</b>              | Ambient Temperature: 65° to 75°F<br>< 30ft: ±6 LSD<br>> 30ft: ±(2% of reading + 3 LSD)                             |
| <b>Ambient Temperature:</b>   | <65° and >75°F<br>< 30ft: ±6 LSD<br>> 30ft: ±(3% of reading + 3 LSD)<br>LSD = least significant digit              |
| <b>Resistance:</b>            | 0 to 65Ω (±2% of reading)                                                                                          |
| <b>Operating Temperature:</b> | 32° to 104°F                                                                                                       |
| <b>Operating Humidity:</b>    | 20% to 80% RH                                                                                                      |
| <b>Storage Temperature:</b>   | 0° to 120°F                                                                                                        |
| <b>Auto power off:</b>        | After 5 minutes (approx.)                                                                                          |
| <b>Battery Life:</b>          | Depends on use. Typically 40 hours.<br>Extended measurements times can lower battery life to no less than 6 hours. |
