## PLIER WRENCH

Klein's Plier Wrench functions as an adjustable wrench on flat-sided fasteners as well as a pump plier for pipe and other round objects. Its reversible jaw provides smooth parallel jaws characteristic of traditional plier wrenches, with the added versatility of knurled teeth on the reverse side when extra bite is needed. Handle lever provides unique and efficient adjustment.

**HIGH LEVERAGE  
DESIGN PROVIDES  
STRONG HOLD ON  
WORKING PIECE**

**HIGH-LEVER RATIO** provides exceptional grip when holding or bending various workpieces

**HANDLE LEVER ADJUSTMENT** minimizes hand travel and allows adjustment in confined spaces

**MAXIMUM VERSATILITY**  
with 2" max jaw opening  
and 20 adjustment positions

**PARALLEL  
JAWS**  
provide secure  
and smooth  
gripping of  
nuts, bolts, and  
miscellaneous  
workpieces

**KNURLED TEETH**  
on reversible jaw  
provides extra "bite"  
when working with  
conduit and pipe

**TWO TOOLS IN ONE**

**OFFERS BOTH PARALLEL JAWS AND V-JAW FOR DUAL FUNCTIONALITY**

**REPLACEMENT JAW** available (Cat. No. 53010J)
