READ INSTRUCTIONS BEFORE USE

This tool is for handheld use only. Do not use extensions or accessories.

HOTROD™

Model HRD614

Remove cap to replace battery.

Do not use screwdriver blade to pry.
Plastic cap will be damaged if pounded
on or hit.

Excessive force when tightening or
loosening screws may damage
screwdriver blade.

The following safety instructions **MUST**
be followed when using the **HOTROD**
™ **SAFETY SCREWDRIVER**:

1. Never work on live lines. If
HOTROD™ indicates a live line, turn
off line power before continuing.
 2. Always test product on **KNOWN**
live voltage, before use, to verify proper
operation. Handle must be held in hand
for proper operation.
 3. Never use product near or on lines
that may exceed 600 volts.
 4. Blade must physically contact
CONDUCTOR to indicate live lines.
This unit only provides proximity
indication at butt end of handle.
 5. Replace **HOTROD™** immediately
if insulation, handle or cap appears
damaged in any way.
 6. Never use adapters, extensions, or
accessories with this tool.
- *120 volt outlets may be tested by
inserting blade into hot side of outlet.
Also check neutral in case of miswiring.

⚠ DANGER!

Avoid contact with live circuits.
Electric shock can result in injury or
death. The **HOTROD™ SAFETY**
SCREWDRIVER is designed for use
by qualified electricians.
HOTROD™ will not detect voltage
through shielded cable or conduit.
