FLIR HORIZON™ 9.2

Enterprise Grade NVR for the
United VMS (UVMS) Family

The FLIR Horizon NVR delivers best-in-class performance and stability for video installations of up to 150 cameras. Horizon is the ideal high-performance video surveillance choice for securing small-to-medium sized businesses with independent or multiple sites. Feature-rich, highly scalable, and third-party compliant with an open standard, FLIR Horizon offers unsurpassed value for installations including retail, offices, small-to-mid sized manufacturing facilities, warehouses, and educational institutions. Set-up is exceptionally simple, and training is not required. View cameras and review recordings on dedicated workstations through a powerful EZ Client web interface from connected PCs.

ENTERPRISE-CLASS NVR

- Feature-rich and highly scalable
- Includes one year of Gold Level SSA, including health monitoring with FLIR Cloud services
- Three-year ProSupport with onsite service the next business day

QUICK AND EASY DEPLOYMENT

- Preloaded with FLIR Horizon management software and pre-licensed with 24 video channels
- Speedy setup and configuration process
- No operator training required

OPEN PLATFORM

- Supports a wide range of third-party cameras
- Supports integrations with access control and POS systems
- ONVIF Profile S conformant

SPECIFICATIONS

Hardware Specifications (Check USS datasheet for exact specification)

Storage	16 TB to 64 TB (None-Raid) usable
