

m1 Quick Reference

Power On

Zero

Backlight

Power Off

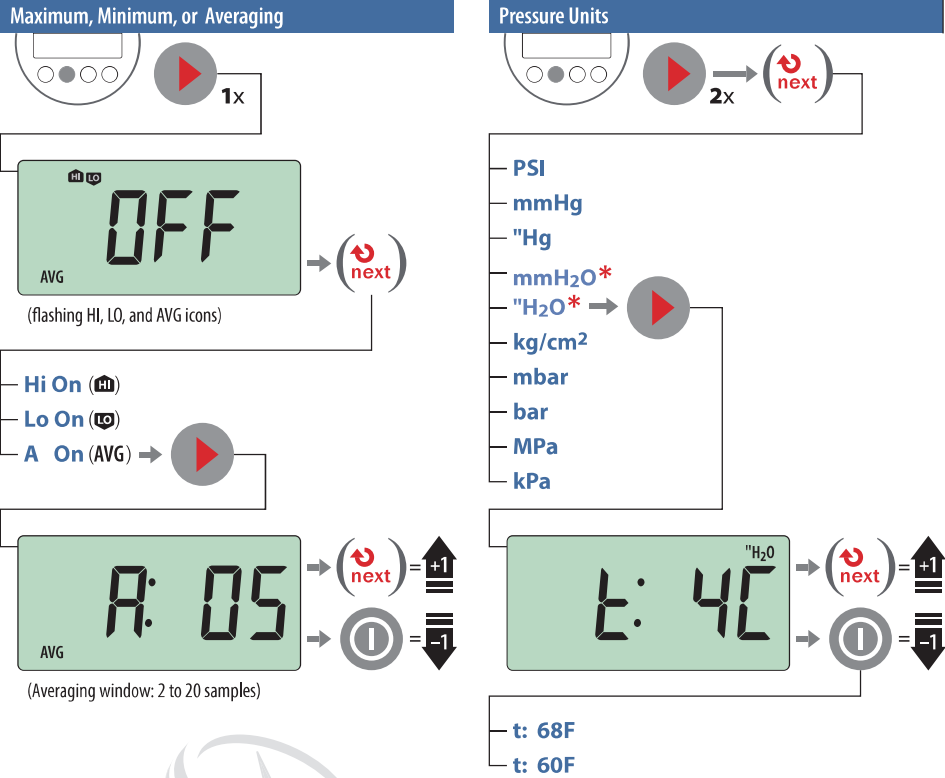

Note: Pressing the **enter** button always returns the gauge to operating mode. If you want to set multiple Display Functions, press the **setup** button to navigate from one Display Function to the next, then press the **enter** button when you are done.

Gauge Setup Basics

Gauge Setup Map

All units are not available with every pressure range.
 * H₂O icons and temperature settings will only display on H₂O enabled units.

Gauge Setup Map continued

Backlight Timer

- **Lt: 15** (light stays on for 15 seconds)
- **Lt: 60** (light stays on for 60 seconds)
- **Lt: On** (light does not turn off automatically)

To Clear Peaks or Line Pressure

Troubleshooting

Err 1 displayed:
The M1 checks the internal calibration every time it's turned on.
Contact factory for further instructions.

Err 2 displayed:
The M1 has tried to display a number too large for the display due to electrical malfunction or numerical error.
Contact factory for further instructions.

Err 5 or **Err 6** displayed:
The M1 pressure sensor is exhibiting behavior out of normal operating condition. **Contact factory for sensor replacement.**

Note: If there is no gauge activity for 10 seconds, the gauge will return to operating mode. Any Setup options that you have selected will be enabled.
