

Moisture Meter for Temperature

TM-100

The TM-100 measures temperature over the range of -40°C to 150°C. This meter is ideal for many applications in industry and agriculture as it can be used either in the air or in penetrable solids. The TM-100 uses reliable semiconductor technology and is built to withstand the most demanding applications.

Electrodes

PE-22 Probe Extension

3 ft. probe used with TS-107 sensor.

SH-44 Handle

Used with TS-107 sensor.

TS-102 Sensor

Used for liquids, gases, and ambient temperature.
Stainless steel 5" probe.

TS-107 Sensor

Used for penetrable solids like hay and grain. 3 1/2" aluminum and delrin with stainless steel tip.
Must be used with SH-44 handle.

For over 65 years, Delmhorst has been the leading manufacturer of high quality moisture meters and thermo-hygrometers. We offer a wide range of meters for a variety of applications, including restoration, IAQ, flooring, woodworking/lumber, construction, agriculture, and paper.
