Digi-Sense® Specialty Thermocouple Probes with Miniconnector End

Easily identify probes

(D) DIGI-SENSE.

Probes with handles feature a strain relief spring that protects the cable connection against damage due to repeated flexing and tugging. ABS handles provide a light weight design for ease of use along with durability.

[&]quot;Temperature range is for the probe tip only. The handle material may be affected if the probe is rated higher than the handle depending on exposure time, application, and handle material. ABS handles are rated to 220°F (104°C); PVC handles are rated to 200°F (93°C); Stainless steel handles are rated to 450°F (232°C).

Overall probe sheath lengths may vary up to ±0.25". *Discounts: Save 10% on 6-10 probes of any assortment, 15% on 11-24 probes, and 20% on 25-50 probes.
